BE INFORMED BE PREPARED BE A VOLUNTEER

South Carolina DHEC Region 8 (Beaufort, Jasper, Colleton, & Hampton) seeks medical volunteers to provide healthcare and supplemental medical and public health staff during hurricanes, terrorists attacks, flu outbreaks and other public health emergencies.

Also needed are volunteers to assist in non-emergency public health initiatives like flu clinics, health fairs, educational events and emergency preparedness.

We need nurses, physicians, pharmacists, dentists, mental health counselors, social workers, and other community members such as interpreters, chaplains, office workers and other vital support personnel... we need you. All are welcome, including retirees and students.

Free training will be provided to all volunteer members of the Medical Reserve Corps.

Consider being a healthcare ambassador.
